Commercial

Commercial/Industrial properties are billed based on the total square footage of impervious surface on the property. The total impervious square footage of a commercial property is then converted to ERUs. For example, a business might have a total impervious surface of 11,000 square feet. 11,000 sq. feet/2,228 sq. feet per ERU = 4.9 ERUs. Each commercial ERU is billed at \$10.34. Purchase Gas Adjustment (PGA): If the wholesale price of gas purchased by the City of Duluth is increased or decreased as compared to the residential small volume customer rate listed in the Customer Rate Schedule, the unit commodity charge (\$ per CCF) for gas sold under the applicable rate scheduled shall be increased or decreased on the customer's monthly bill in the same amount as the unit cost of gas has been increased or decreased. The PGA calculation will be made by adding or subtracting from the rate per CCF set forth in the customer rate schedule above for each class of customers an amount equal to the rate and the wholesale price of such gas plus an adjustment to reflect the amount of the PILOT resulting from the difference between the applicable Customer Rate and the wholesale price.
